

It Takes A Squirrel's Gumption... To Sell A Feeder In This Business!

A Bit About Backyard Bistro

Scott Dobberstein and his wife, Nancy, started Backyard Bistro almost seven years ago. It all began when a friend asked Scott to make a pigeon feeder out of a five-gallon bucket. Now Backyard Bistro sells its feeders on the Internet and is in the process of marketing through distributors and stores. Squirrels are the biggest frustration for those who feed birds. Scott's dad, an avid bird-watcher, gave him the idea to create a dome-shaped aluminum bird feeder lid to keep the squirrels out. It worked beautifully! And keeping things in the family... Scott's niece came up with the name Backyard Bistro and they have received many compliments on it.

Scott and Nancy recently attended *Bird Watch America* in Atlanta, the biggest convention for international buyers and manufacturers. Everyone loved the concept and their booth was full of interested buyers during the entire event! Backyard Bistro has now expanded so as to provide bird lovers with the most unique high-capacity bird feeder on the market. They are continually coming up with different product lines and variations on existing ones. Color options and copper lids are just examples of the variety that will be coming soon.

"It's a good feeling to see the bird feeder in someone's yard and know that it is our product. I have really enjoyed this experience and the fact that my wife is a piece of the backbone of this company."

Scott Dobberstein
President, Backyard Bistro

Feed All Your Birds From One Feeder!

"We have been using your bird feeders for a number of years now. We have a small resort in one of the premier birding areas in Texas. We have found nothing that compares to the quality and convenience of your feeders. They are truly wonderful. In fact, once other property owners in the area saw them they also wanted them. I was happy to give them all the information they needed to order their own. Now this little hamlet of Concan, Texas on the Frio River is full of Backyard Bistro feeders. Our guests also purchase them at our resort."

“We would like you to know that the Backyard Bistro is the focal point of our backyard. It is really amazing to see the realm of birds dining at the Backyard Bistro feeder!”

Jeff & Linda Marsh,
Members of John James Audubon's Local, State and National Societies, Nebraska

People All Across the U.S. Are Talking About Backyard Bistro!

A friend of mine asked me after seeing the Backyard Bistro hanging in my tree if I liked it, I told him yes I like it. **Best money I ever spent.** The feeder is loaded all the time. I get a variety of birds feeding from it. I only have to fill it every other week and it's easy to clean. We get a lot of enjoyment watching our favorite birds feed from this well designed feeder.

Bobbie Moss,
Nebraska

We have one of the Backyard Bistro bird feeders and it is great. Lots of Finches, Titmice, Chickadees, and Cardinals eat from the bistro, and the squirrels cannot get to the bird seed in the feeder. We liked it so well we purchased one for our good friend in New Hampshire. Thank you so much.

Richard & Virginia Carignan,
Maryland

I just wanted you to know how much we are enjoying our Backyard Bistro. Our old feeder had a bad design in that as the seed went down inside the ports, the tube narrowed. The bistro's design is unique and works so well for us. It holds so much seed that we need only to fill it every couple of weeks compared to 3 days with the old feeder. It keeps the seed clean and the birds flock to it. Thank you so much for such a wonderful product!!

Gayle Edwards,
California

A note to let you know how we really are enjoying our Backyard Bistro bird feeder. It does what it is supposed to by keeping the squirrels from eating the food. We thought enough of the feeder to order two more to give as gifts. We live in Georgia and have a variety of birds to enjoy. Some of the birds we see feeding from the feeder are Cardinals, Finches, Bluebirds, and the Brown Thrasher (our state bird). What a great idea!

Will & Myra Baker,
Georgia

Just a note to tell you how much pleasure and free hours of entertainment we are getting out of our Backyard Bistro bird feeder. We have three other feeders in our yard and the birds go to the Backyard Bistro most of all. The birds actually wait on nearby branches and limbs for an open spot to feed from. Thank you for a great idea and a wonderful product.

Jerry & Patti Walker,
Georgia
